PROJECTS

• Frontend Code Editor

• The Frontend Editor Web App is an intuitive online platform for creating and editing HTML, CSS, and JavaScript code. It provides real-time preview functionality, allowing users to see the effects of their code changes immediately. This project demonstrates web development techniques, focusing on enhancing user experience and coding productivity

(Github Link : <https://rkgit-1530.github.io/frontend-Editor-live/>)

• Personal portfolio

• The Personal Portfolio is a professionally designed website showcasing my skills, projects, and experience in web development and Python programming. It features a clean, responsive layout with sections dedicated to my work, achievements, and contact information. This portfolio serves as a digital resume, highlighting my expertise and dedication to coding and technology.

(Github Link : <https://rkgit-1530.github.io/rkportfolio/>)

• Todo List App

• The To-Do Web App is a streamlined task management tool where users can easily add new tasks and delete them once completed. Developed using HTML, CSS, and JavaScript, the app focuses on simplicity and efficiency, offering a clean interface for seamless task organization. This project highlights my ability to create practical web solutions that enhance daily productivity.
